

# NO COMPROMISE ASSERTS BURKE ON COURT BILL

Senator Robinson Declares  
That Amendments  
Would Be Offered

## PASSAGE EXPECTED BY PRESIDENT

Roosevelt States American  
People Want Re-  
form of High Court

By The Associated Press.  
WASHINGTON, June 4.—President Roosevelt said today there was no question that the court reorganization bill would be passed this session. He made the statement at his press conference, at the same time parrying questions about a compromise.

The President, however, when he said Senator Robinson, the Democratic leader, had given a correct statement last night to newspapermen, indicated the administration might accept some compromise proposal.

(Robinson said certain amendments would be offered to the bill when it came up on the floor and that he may offer one himself.)

The President said the American people want court reform. He complained that while the supreme court was entitled to a recess it had adjourned for the summer without deciding several important cases in which the administration was vitally interested.

Speaking in metaphor, the President said, with regard to the proposal to enlarge the supreme court unless older justices retire, that the country in recent weeks had seen a forest while a lot of people in Washington were likely to see trees instead of a forest.

His forest remark was understood by his hearers to have reference to reform generally; the trees relating to the number of new judges needed.

Asked flatly about a possible compromise on two new judges instead of six as he originally proposed, the President said the inquiry was talking about trees while he was talking about court reform.

"How many trees to make a forest?" someone asked.

He smiled but did not answer.

The President said an illustration of the need for court reform was given by the high tribunal last week in adjourning until October without deciding four cases important to the country. He listed them as the TVA case, which had been decided only partially before; the PWA cases involving the right of the federal government to lend money to municipalities for power projects; and the securities commission case.

He did not mention the fourth case specifically. He did say, however, the court had made no suggestion for remedying the situation which he said was preventing the government from prosecuting the Aluminum Company anti-trust suit.

In this connection he said the supreme court had been always looked on as a father of the lower courts, yet in the Aluminum Company case, in which the government was enjoined in the lower courts from pressing its suit in any jurisdiction outside of Western Pennsylvania, the government was receiving no help.

Mr. Roosevelt said under the law there was no method of carrying the case up to the highest court except through the circuit court and it may be several years before a final decision is rendered. The pending court reorganization bill, he said, would permit a quicker method.

The President said in the PWA cases six decisions, all favorable to the government, had been rendered by circuit courts. Nevertheless, he added, the supreme court quit for the summer after deciding to defer arguments on these until fall.

WASHINGTON, June 4.—The first public indication of an administration compromise on the Roosevelt court bill brought a terse refusal from a leader of the opposition today to accept any modification.

After Sen. Robinson of Arkansas, the Democratic leader, said that amendments would be offered, Senator Burke (D-Neb.) commented:

"We will be here until the end of time before such a bill will ever pass."

"There can't be any compromise on the basis of adding a lesser number of justices to the supreme court for the purpose of influencing its decisions."

"It is a perfectly clear issue between those who are willing to add some members and those of us who are fighting to maintain an independent court."

Robinson, who conferred with President Roosevelt for two hours last night, gave no hint of the nature of the proposed amendments to the controversial bill. He said he might offer one himself.

"The measure," he said, "will be proceeded with, and it is expected

# THOUGHT THE DUKE GIVING FASCIST SALUTE

VENICE, Italy, June 4.—(AP) The duke of Windsor waved a honeymoon adieu to cheering Venetians today, arm raised, palm upward.

Venetian Fascists howled with joy. They thought the duke, departing by train for Austria with his duchess, was giving the Fascist salute.

# NINE PASSENGERS BURN TO DEATH IN A BUS WRECK

Big Machine of Greyhound  
Lines Overturns Near  
Shiloh, Calif.

By The Associated Press.  
REDDING, Calif., June 4.—Nine passengers were burned to death when a Greyhound stage overturned early today at Shiloh Springs, 48 miles north of here.

Flames burst from the big machine when it toppled over and trapped the victims in the wreckage.

The fire attracted enrollees from a nearby CCC camp and they rushed to the scene and poured water on the bus.

Coroner Roy S. Duggins telephoned here that he had found nine bodies and believed all persons aboard the machine had perished.

Al Wilson of Redding, the driver, was among the victims. The passengers included men and women and a child, but their identities were not known as the bus company said it did not take their names.

The bus was en route to Portland, Oregon. It was due at its next stop, Shiloh Springs, at 4 A. M.

At Chico, F. L. Speck of the Los Angeles police department, said he had witnessed the wreck.

He said the bus, reported to have been a local en route to Shiloh, was traveling on a straight-away road. Suddenly it ran up on a bank and then turned over in the middle of the highway.

# URGES ACTION TO GET PAYROLL TAXES

JEFFERSON CITY, June 4.—Governor Stark today urged "aggressive action" by the Missouri delegation in congress to get for the state the \$5,000,000 in federal payroll taxes lost because an unemployment compensation law was not passed before January 1, 1937.

He wired Senators Clark and Truman and each representative notifying them the assembly has passed an unemployment compensation measure, and asking them to use their efforts toward getting "a suitable bill through congress making deductions effective for the year 1936."

Under the federal social security act, 90 per cent of the federal payroll taxes in each state are credited to the unemployment compensation funds of that state, if it sets up a state compensation system.

Missouri lost the 1936 payments through failure to act before the end of the year. They will go to the federal treasury unless congress specifically approves waiving the January 1 requirement.

# DUKE AND DUCHESS RIDE DOWN THE GRAND CANAL

Throng of Tourists at  
Milan Cheer Them on  
Reaching There

## PROCEEDING TO AUSTRIAN CASTLE

Couple Wave To Throng  
of Approaching Folk  
at Venice

By The Associated Press.  
VENICE, Italy, June 4.—The duke and duchess of Windsor rode down the Grand canal of this Italian honeymoon "Niagara" today to the cheers of romantic Venetians.

The new family Windsor, speeding by train from their Chateau de Cande wedding to the "haunted" Austrian honeymoon castle of Walsleben, near Neotens, alighted from their special car and entered a motor launch for the canal ride.

They took the "between trains" excursion as the guests of British Consul Allen Napier, who met them. They had three hours until the next train for Austria.

The duke seemed comfortably domesticated. When the train pulled in, he could be seen in the window—in blue and white striped shirt sleeves.

He put on a brown coat and straw hat before he alighted with the new duchess, who had added a small white straw hat to her blue traveling ensemble.

Edward waved the hat to a throng of applauding folk, most of them women, which had gathered at the station. The duchess waved her hand.

"Vivas" and fluttering handkerchiefs came from the people on the bank of the beautiful canal. On the train a steaming tray of China tea, toast, rolls, butter, jam and lemon refreshed the couple breakfasting for their first time as man and wife.

At Milan, a throng of tourists—mostly American women with a scattering of English travelers—shouted a refrain of "Wally! Wally!" until Edward came to the window, waved, and then brought his bride to his side.

The journey was undisturbed through the night crossing of France and Switzerland.

But with the arrival of day, knots of cheering folk gathered at stations in the panoramic Italian lake region through which the streamlined Simplon-Orient express sped with the duke and duchess.

The Windsors' door was shut and locked, however, and Edward's cheery greeting at Milan was the newlywed's first appearance.

# FOR AMENDING WAGE PROGRAM

By The Associated Press.  
WASHINGTON, June 4.—William Green endorsed the administration's program for wage and hour control today but suggested amendments designed, he said, to make certain the bill would "operate in fact and in practice to encourage, not supplant collective bargaining."

The president of the American Federation of Labor recommended that congress establish a 40-hour basic week with power vested in an administrative agency to reduce the standard downward to a 36-hour work week. He also proposed a 40-cent hourly minimum wage provision.

Testifying before a joint congressional labor committee considering the bill, Green said, however, that the Federation of Labor would strongly oppose general government wage regulation for men in private industry.

# STRIKE ENDS AT ANOTHER HOTEL

By The Associated Press.  
KANSAS CITY, June 4.—Eighty employees of the Ambassador Hotel returned to work today as the hotel management signed a contract providing a closed shop for the two strikes affecting 11 hotels here Saturday.

Attorneys for the Kansas City Hotel Association announced after a conference they planned to confer with attorneys for the striking unions.

The Ambassador is the second strike affected hotel to sign a contract.

Harry Bray of the Bray Hotel also announced he would sign. Bray employees are not on strike. The Hotel Phillips signed Wednesday. Miller said the new contracts would be similar to the Phillips contract, but details were not announced.

# UNITED FRONT "TO SAVE SPAIN" AIM

By The Associated Press.  
MOSCOW, June 4.—The Komintern, the third Communist international, today ended its long-standing quarrel with its parent body, the second Socialist International, and proposed a united front for "action against German and Italian intervention in Spain."

The move, George Dimitroff, secretary general of the Komintern announced, was the direct result of the bombardment of the Spanish city of Almeria by German warships.

"A united workers' front for material as well as moral support of the Spanish workers must—and will—be established as the answer to Almeria," Dimitroff declared.

Dimitroff, as spokesman for the Komintern—the international organization of the Communist parties of all nations—proposed definitely the formation of a joint commission from his own group, the second international, and with the National League of Labor Unions.

The proposal was prompted, he said, by an appeal from the Communist and Socialist labor union parties of Spain "for a united front to save Spain."

By mobilization of the masses of workers, Dimitroff said, "the British and French governments would be compelled to take energetic steps against the intervention of German and Italian fascism."

# SALES TAX HIKE BILL NOW READY FOR GOVERNOR

Signature All That Is  
Necessary To Make It  
Become Law

JEFFERSON CITY, June 4.—The 2 per cent sales tax bill, designed to raise \$2,000,000 a month to finance the state's social security program, received final legislative approval today.

Since the measure carries an emergency clause, only Governor Lloyd C. Stark's signature was necessary for the measure to become law.

The bill would do away with the "milk bottle cap" receipts used by State Auditor Forrest Smith to aid in collecting the levy, and would replace them with zinc metal tokens.

The house accepted the conference committee report on the sales tax today, after the senate agreed on the bill yesterday afternoon. The final house vote on the measure was 79 to 23.

Most of the house opposition to the bill came from the Republican minority, although several Democrats, including John D. Taylor of Charleston county, voted against the measure.

# STARK SCORES A HOUSE AMENDMENT

By The Associated Press.  
JEFFERSON CITY, June 4.—A house amendment to the proposed statewide anti-narcotics bill was scored by Governor Stark today as "materially weakening it not fatally damaging the bill."

The amendment in question, which goes back to the senate for approval, would give the right of court appeal from rulings of the State Board of Health, without barring the person ruled against from handling narcotics while the appeal was pending.

"I understand the statement was made that I approved this amendment," the governor said.

"I want it known that I distinctly disapproved of and disagree with the amendment."

He said he had told Max Asotsky of Kansas City, who presented the amendment, that he hoped the bill "would pass without change" but that if an amendment was considered necessary it should contain a clause keeping the health board's ruling in effect pending court action on the appeal.

"The amendment adopted did not contain that section, and would allow dope peddlers to go on plying their trade as long as they could drag out an appeal—for years perhaps," Stark said.

If the senate rejects the amendment, and the house refuses to recede, a conference committee would be named.

Stark has said the bill is asked to prevent Missouri being a "dumping ground" for narcotics.

# TWO INCHES OF SNOW FALLS IN NEBRASKA

KIMBALL, Neb., June 4.—(P)—Two inches of snow fell here today while the remainder of Nebraska reported normal temperatures in the seventies. It was a heavier snowfall for this dusty region than any received during the winter. Visibility was limited to a quarter of a mile.

For Extending P.W.A.  
WASHINGTON, June 4.—(P)—The house appropriations committee recommended legislation today to extend the public works administration for two years and authorize it to use approximately \$256,000,000 for loans and grants.

# AMELIA EARHART OFF FOR BRAZIL

By The Associated Press.  
FORTALEZA, Brazil, June 4.—Amelia Earhart landed at this northeast Brazil seaport today at 4:31 p. m. (2:31 EST) after a flight from Paramaribo, Dutch Guiana, on another leg of her hop around the world.

MIAMI, Fla., June 4.—(P)—Pan American Airways was advised that Amelia Earhart flew over the airport at Fortaleza, Brazil, at 2:26 P. M. (Eastern Standard Time) today without stopping on a hop from Paramaribo, Dutch Guiana.

PARAMARIBO, Dutch Guiana, June 4.—Amelia Earhart took off from here at 5:10 a. m., Eastern Standard Time, today on the fourth leg of her round-the-world flight.

Pan American Airways, over whose route she has been flying since leaving Miami, Fla., reported that Miss Earhart was headed for Belem, in Brazil at the mouth of the Amazon river, a distance of about 320 miles from here.

The Airways report added that she might try to reach Fortaleza, Brazil, today for a hop of 1,628 miles. She will fly more than 200 miles over water crossing the mouth of the Amazon.

# \$20,000 CUT IN STATE FAIR FUND FOR BIENNIUM

\$121,839.50 Is Set By The  
Senate Appropriation  
Committee

JEFFERSON CITY, June 4.—(P)—The senate last night approved amendments to the "omnibus" appropriations bill cutting \$20,000 from the amount allotted the state fair for 1937-38 by the house of representatives, from the state's general revenue fund.

Chairman J. S. Rollins, Columbia, of the senate appropriations committee, said the total of \$121,839.50 left after the cut still is substantially greater than the appropriation for the 1935-36 biennium.

An item of \$12,977.50 for drinking fountains, plumbing, and shrubbery was cut to \$7,977.50. The repairs and replacements item was reduced by \$10,000 to \$24,702, and that for operations by \$5,000 to \$75,000.

Also included in the appropriation bill was \$250,000 to come from funds received from sale of concessions and from entrance fees, for support of the fair. This is well in excess of the amount actually received in the past.

Senate changes in the bill must be approved by the house.

# NEARER TO END OF GENERAL ASSEMBLY

JEFFERSON CITY, June 4.—Missouri's five-month-old legislative session was rapidly breaking up today.

Except for the appropriations measures and the Casey social security bill, there appeared to be little of importance standing in the way of final adjournment.

Although the house of representatives refused to join the senate yesterday in agreeing to fix sine die adjournment at 6 o'clock next Monday night, there was a general feeling the session—now in its 150th day—would end early next week.

Conferees on the Casey bill which combines the administration of old age assistance, direct relief and child welfare activities under a single commission, failed to reach an agreement last night, and planned another meeting for tonight.

Because of objections from the social security board in Washington, it was believed the controversial section requiring that county commission secretaries be residents of the county for five years would be taken out of the measure.

Another joint conference committee agreed to lower the minimum eligibility age for old age assistance from 70 to 65 years, but refused to take a senate amendment authorizing the legislature to earmark any tax revenue for pension payments.

# NO FURTHER IDEAS TO OFFER CONGRESS

WASHINGTON, June 4.—President Roosevelt said today he had completed his legislative recommendations for this session of congress.

He told a press conference he had no further ideas and that the program for the rest of the session should stress consideration of the measures outlined last night by Senator Robinson, the Democratic leader, after his conference with the president.

Robinson said it would be "desirable" if congress should enact the judicial and government reorganization proposals, minimum wages and maximum hours, aid for farm tenants, low cost housing, and prevention of tax dodging and extension of nuisance taxes.

# QUICKLY SETTLE DISPUTES IN THREE CHRYSLER PLANTS

Sit-Down Early Today  
Had Increased Idle In  
Labor Ranks

## DEATH IN RIOT AT LUMBER PLANT

Fists, Clubs and Bricks  
Bats In Battle at  
Newberry, Mich.

DETROIT, June 4.—Settlement of labor disputes which closed three Chrysler Corp. plants here today was announced this afternoon by R. J. Thomas, president of the United Automobile Workers local in the Jefferson avenue plant.

The Jefferson avenue, Kercheval and DeSoto plants were closed this morning, affecting 12,500 men, after a sit-down strike in the Jefferson avenue plant. Night shifts in the affected plants were called to work as usual.

The Pontiac Motor Company's assembly line at Pontiac, Mich., closed down because of parts shortage. About 1,500 were idle there.

By The Associated Press.  
Sit-downs returned to the automobile industry today boosting the nation's strike idle to near the 100,000 mark.

Tentative peace moves in the steel walk out, with an estimated 73,000 out, proceeded but strikers and sympathizers barricaded a freight train, bound for a Republic Steel plant in Warren, O., and halted a postal ruling there refusing delivery for cartons of food addressed to men still working in the plant.

Five big automotive units in Michigan were closed by sit-downs which threw 17,000 out of work. Companies affected were Chrysler, two units; Packard, De Soto and Fisher Bodies.

At Detroit, Personnel Director Harry H. Bennett of the Ford Motor Company, notified authorities he would appear Monday before a one-man grand jury investigating a riot outside the Rouge plant when a union organization campaign got under way last week, in that city prosecution's officers seized an automobile loaded with gear as equipment at the gates of the Great Lakes Steel Company, unaffected by strikes, but where an effort to organize workers was reported under way.

First reports of Committee for Industrial Organization activity in the northern mine ranges of Minnesota and Michigan brought claims of progress in the CIO campaign to tie up supplies for steel firms by unionizing ore diggers.

The CIO began an organization campaign in Illinois also. It followed the official withdrawal of its affiliate the Illinois District of the United Mine Workers from the State Federation of Labor.

In other areas the Sharon Steel Company at Youngstown, O., signed a bargaining agreement with the CIO Steel Workers Organizing Committee, meat deliveries from packing houses resumed after Federation of Labor truck drivers withdrew support from striking packing workers at Providence, R. I., hearings on the wages and hours bill continued in Washington, and disorders in a Michigan lumber strike resulted in the death of one and injury to five others.

**Two Chrysler Plants Close**  
The Chrysler Corporation in Detroit announced the closing of two plants employing 11,000. The company said two union men refused to work alongside two non-unionists.

Closing of two plants was necessitated by shortage of cars and bodies, they said.

The Packard Motor Company reported it was forced to curtail production at Detroit because some workers did not appear in the stamping division. No reason was given, but 3,000 men were sent home because of lack of materials.

Differences over minimum wages caused a strike at the Timken Roller Bearing plant at Canton, Ohio, where 6,500 were idle. Members of the Committee for Industrial Organization of steel workers voted to strike after failure of a wage conference.

**Battle of Fists and Clubs**  
A battle of fists, clubs and bricks broke out at dawn near the Newberry (Mich.) Lumber and Chemical Company plant. Striking Woodmen and mill workers from Munising, Mich., marched on the plant where company employees, who refused to walk out, repulsed them.

A coroner said he could not determine immediately whether injuries during the fight or a heart attack from excitement caused the victim's death.

Comparative quiet returned to Little Falls, N. J., where trucks were stoned and 15 persons were injured earlier in the week at a laundry strike.

In Chicago railway management committees continued conferences representatives of 14 non-operating unions over demands for a 20 per cent increase.

The motion picture workers strike in Hollywood spread to the plants

**Sentences Range From  
Two To Four Years In  
Federal Prisons**  
By The Associated Press.  
KANSAS CITY, June 4.—Four men, all democratic workers in last November's general election here, were sentenced to prison in federal court today for conspiring to steal votes and a fifth was sentenced and placed on probation.

Three women who pleaded no defense during the trial in which the men were convicted, were placed on probation for three years by Federal Judge Albert Reeves.

Today's sentences closed the eighth in a series of vote fraud trials growing out of the government's still continuing probe of Kansas City election thefts. Those sentenced today:

Frank Geier, Democratic judge, two years at Leavenworth.

James Callahan, Democratic judge, three years at Leavenworth.

Mike Cummings, Democratic worker, four years at Leavenworth.

James Carter, Democratic worker, four years at Leavenworth.

Frank Gunninger, Democratic clerk, was sentenced to two years in El Reno, Okla., reformatory, but his sentence was set aside and he was placed on probation.

Placed on probation were Mrs. May Bartlett, Republican judge; Mrs. Geneva Viebig, Republican judge, and Mrs. Maude Hancher, Republican judge, and Mrs. Maude Hancher, Republican clerk.

These sentences brought to 34 the number of men and women sentenced to jail or prison in the eight trials. Eleven others are on probation after pleading no defense while eight have been sentenced and then placed on probation.

The government will begin its ninth trial June 21. More than 70 persons under indictment still are awaiting trial and a second grand jury now is studying further evidence of vote thefts. Those already tried were indicted by the first grand jury, which was dismissed before completing its probe.

The eighth trial brought out for the first time testimony concerning "ghost voters" who were credited with voting in the precinct, although subsequent investigation revealed the ghosts were registered in some cases from vacant lots, empty houses and small business establishments.

In passing sentence, Judge Reeves told the defendants:

"You (Cummings) and defendant Callahan were engaged in the noxious and abhorrent thing known as stuffing the ballot box. Lou and defendant Carter raved over the ballots after they were dumped out when the polls closed, in reckless disregard of the sacred rights of the people and of the law."

"I assume, too, that you knew there were pads on the poll books from vacant lots and houses, because, when the voters were not there, you called off names from the poll books and ballots were cast."

Judge Reeves also fined four of the men \$1,000. Gunninger alone being fined only \$200, but in each case he set the fine aside.

"I don't believe this case calls for any extended comment this morning," Judge Reeves declared before calling defendants before him. "There was no evidence of alteration of ballots."

His attitude was in contrast to what it was Tuesday when he passed sentence on four defendants in an earlier trial on that occasion the judge vigorously criticized state officials for not conducting an independent drive against ballot irregularities, observing that during trial in federal court "a perfect catalog of state crimes" have been uncovered.

**Bothwell Hospital Notes**  
Eugene Russell, aged 10, of 511 East Thirtieth street, suffered a fracture of his wrist this morning and was taken to the hospital for emergency treatment. He stated that he was pushed down a stairway at the First Baptist church building by some boys, and was injured in the fall.

Herman Norseman, 1300 East Fourth street, is improving nicely.

Mrs. Rudy Hink of Cole Camp, recently operated upon has recovered sufficiently to return to her home.

# BOMBS WOUNDED POSTAL CLERKS

They never were caught.

Today's blasts wounded two postal clerks slightly. One of the packages was traced to a "tall dark young man" who was seen to drop it in a post office slot.

# BREATHING SPELL MAY FOLLOW DEATH OF MOLA

Bells of Insurgent Spain  
Toll Requiem For General Killed

## DESIRE EXPRESSED TO EASE TENSION

Germany and Italy Show  
Inclination For Such  
a Move

(By the Associated Press)  
The bells of insurgent Spain toll requiem today for Gen. Emilio Mola.

Bilbao, besieged for eight weeks by the forces of the fallen northern commander, hoped for a breathing spell.

Shattered in the crash of a fog-bound plane yesterday, the body of Gen. Mola lay in state in a military hospital in Burgos. In the green village of North Stoneham, England, Basque refugee children, believing the end of Mola meant the end of the war, cheered.

Russia, France and Italy stirred in defense of their several Spanish interests.

France, annoyed by the recent machine-gunning of the border town of Cerbere by an insurgent plane, strung batteries of anti-aircraft guns along the Spanish frontier.

Germany and Italy, out of the international non-intervention pact since Spanish government-bombing on their warships, showed some desire to ease the tension.

Italian Foreign Minister Count Galeazzo Ciano assured United States Ambassador William Phillips the civil war crisis could be settled without further threat to the peace of Europe.

The Spanish government formally protested to the international non-intervention committee today against the German bombardment of Almeria and reserved the right to claim indemnity.

The government, in a note handed to the British charge d'affaires here, demanded from the signatories of the non-intervention pact the right to commit acts of war within seas and ports in republican territory.

The note said the Spanish government had no objection to an international inquiry to determine whether the aggression was started by the Deutschland. It reserved the right to claim indemnity on grounds that the Almeria losses were inflicted by a part of the fleet given control by the committee.

# Casualties in Shelling

MADRID, July 4.—(P)—A stiff insurgent artillery bombardment killed and wounded about 60 victims in downtown Madrid today.

The heavy, hour-long shelling came while Madrilenos rejoiced over the death of Gen. Emilio Mola, insurgent general Francisco Franco's chief aide, in an airplane accident yesterday.

Newspapers said his death would be a severe blow to the insurrection.

#### SITUATION IN SPAIN

Germany's bombardment of the Spanish loyalist port of Almeria, "without warning," in retaliation for the bombing from the air of the German "pocket battleship" Deutschland, was an act of war. It has intensified the situation in Spain. Conditions are made more delicate by the action of Germany and Italy in withdrawing from the European neutrality committee.

It is a serious situation, but it is believed that Germany is not likely to repeat the bombardment or to shell other places held by the Spanish loyalists. If the Spanish government should be moved to declare war on Germany, the question will take on more serious aspects.

Germany and Italy take the position that they will not attend sessions of the neutrality committee unless there are assurances that the Deutschland incident shall not be repeated. It is not within the power of the other members of the committee to give iron-clad assurances.

There is danger that the shelling of Almeria may lead to international warfare in Spain. Germany and Italy will be to blame if that should occur, for they have been doing much as they pleased. In point of fact there is no necessity for German naval craft to be cruising in Spanish waters. The true reason is that Germany is interested in the Fascist effort to control Spain. That also is the Italian reason.

Germany and Italy are aware that the British wish to stay out of war and they are forcing conditions. If they believed that the British would interfere they would be more discreet. The Nazi and Fascist dictators are taking advantage of the delicate balance in Europe. Always the Spanish situation is likely to cause a great conflict. It is easier to talk about localizing a conflict of this kind than to keep it within boundaries.

Germany and Italy have assisted the insurgents. Of that is no question. Russia and France to a less degree, have aided and abetted the Spanish loyalists, but France is with England in hoping to prevent a spreading of the war. At the moment Germany is satisfied with its retaliation for the bombing of the Deutschland.

#### CANADIAN VIEW OF RECIPROCITY

From the Montreal Daily Star.

The figures of the first year's operation of the Canadian-United States reciprocal trade agreement just made public by an interdepartmental committee of the latter government will, we imagine, surprise even those proponents of the plan who predicted great things for it.

Increased trade between the two countries was naturally to be expected—some gain would have taken place, treaty or no treaty, owing to better times—but a jump of 18 per cent on our purchases from the United States in one year, together with an even more gratifying gain of 32 per cent in our sales to that country in the same period of time, is good news indeed. The totals are impressive, even in these days when we are accustomed to thinking in millions—\$370,000,000 of imports and \$378,000,000 of exports.

The greatest gains were made in those things upon which duties have been lowered, conclusive proof of the value of the agreement to both sides.

Automobiles and parts, various kinds of highly developed machines and electrical apparatus, American periodicals and—an excellent thing—fruits and vegetables during seasons when these

cannot be produced in Canada, are all among the items showing the greatest gain in volume coming into Canada.

The other side of the picture indicates an encouraging growth in the absorption by the American market of Canadian products which, under the Hawley-Smoot tariff, were virtually excluded from it. Outside of whisky, a manufacture, nearly all the marked increases are of things derived from the Canadian soil or seas, lumber, farm products, animals, fish, etc.—in a word, the sort of export that this country has sorely needed and which will help to revive those Canadian industries which have been hardest hit in the last decade.

#### THE WEDDING MONTH

In the calendar of romance, June reaches high tide. More weddings are supposed to take place in the month of roses than in any other. Theoretically any month is equally good or equally bad to get married in. But the girl of a youth's dreams wants that event to be a splendid occasion, and June flowers create a special blaze of glory.

The cynical newspaper man may say all weddings are about alike. Same old flowers, same old music, same old atmosphere of sentiment.

And yet, every one of them is as new as some burst of symphonic music you never heard before. Two lives are setting sail on an unknown ocean, headed for a land of mystery, seeking the riches of an undiscovered country. Even if they call such a ceremony a "quiet" one, such an adventure of sentiment radiates color, and is full of dramatic significance.

#### 'DOUND WORLD ON DIMES

Sir Harry Lauder is making a "dime tour" of the world. The braw Harry is not making the round trip on a solitary dime. He is making it on a collection of dimes—the dimes, he says, which he might have spent, but didn't.

For, it seems, Sir Harry Lauder has made a practice for some years of putting aside the dimes which he receives in change, instead of sending them back into circulation. Dimes pile up quite fast and quite high, that way, and now Sir Harry has enough for an expensive world tour—if the word, expensive, can be applied to any trip of Harry Lauder's.

This seems a new and impressive way of pointing the moral about saving one's pennies—or rather one's dimes. There is only one drawback to the scheme: How can it be worked when one's income in all denominations of money is not sufficient to permit sequestration of the dimes?

#### SUMMER FIRE HAZARDS

Everyone knows of the fire hazards two hot, dry summers have brought. Even normal conditions bring risks from fire during summer, although often the fact that there are no fires going and other hazards of winter not existent, cause us to overlook them.

Some of the worst fires have started in vacant, grassy lots. Uncut, dry grass can almost explode into flame at the touch of a match or spark. It is essential to community safety that adequate laws control the care of grass—and that these laws be enforced. Farmers and others living outside towns should be no less zealous in reducing this hazard.

During good weather, homes are cleaned and renovated. Great amounts of trash must be disposed of, often by burning. Here is still another source of destructive fire. The burning operation should take place only in a metal container of adequate size—and under constant supervision.

In addition, summer is an excellent time for using forethought to the end that our homes may be safer from fire next winter. Before fall comes, every furnace should be inspected and repairs and replacements made where necessary. A few dollars spent in this fashion may save thousands—and, more important, save lives.

Finally, no matter what you do or where you go, be ever awake to the peril of fire. Do you like to drive in parks and forests? Then remember that carelessness with fire has destroyed more trees than man ever cut for a useful purpose. Have you a favorite summer picnic spot? Then bear in mind that the most beautiful place nature ever devised can become an eyesore in a few short minutes or hours if fire strikes.

If you hate to see Junior "thrown on his own resources," it means that you hate to give up the fun of bossing.

People aren't as "sophisticated" as they think. They read books in private that they couldn't read aloud in mixed company.

## The MOUTHPIECE

By EDGAR WALLACE and ROBERT CURTIS

READ THIS FIRST:  
Charles Stuckey, of a London law firm, reluctantly has agreed to a scheme to defraud the daughter of one of his few respectable clients, Jacqueline Smith, of an inheritance of \$1,500,000 from an American uncle. In keeping with the plan, Col. Alex Lutman, an ex-convict, and the lawyer are stopping at the same hotel in Cobenzl, in the financial straits. Mrs. Mary Asson, posing as a wealthy Englishwoman, unsuspectingly falling in with the plan of the three men to have Asson cultivate the girl, later to have her property assigned to him before the marriage, then splitting up the loot, as Jim's "trustee," has hurried Jacqueline's decision by revealing a check he cashed for her mother. After meeting Jacqueline, Stuckey is more reluctant than ever to go through with the scheme and stalls by telling them all the property deed must be signed in London. Back in London Charles leaves Lutman in his office while he goes after Jim Asson.

NOW GO ON WITH THE STORY:  
CHAPTER 19  
CHARLES STUCKEY strode out of his office, and as the door closed, Lutman crossed to the desk and began methodically going through the various papers that littered it. More than once in the past he had found that inspecting papers on desks, in drawers, and if he was fortunate, in safes, was a profitable occupation for any moments in which he might be left alone in someone else's office. But on this occasion he had hardly begun his inspection when the door was flung open and Miss Harrington, with a filing basket filled with papers in her hand, came jauntily into the room, saw him, and halted abruptly.

"Looking for anything?" she inquired. And before the Colonel could adjust his eyeglass and bestow the stare with which he inspected the state with which he inspected, she said: "All right, don't mind me. But there's nothing there worth reading. I've had a look myself."

She went to the safe, tried the handle, found that it was locked, crossed to the desk and pulled at the top left-hand drawer. That, too, was locked, and with a groan of exasperation she set down the filing basket, produced a hairpin from her unruly mass of hair, and thrust it into the lock of the drawer.

"Looking for anything?" smiled Lutman.  
"The safe key."  
"In that drawer? Rather a dangerous place for a safe key, isn't it?"  
"You'd better tell Mr. Stuckey," advised Miss Harrington. "He keeps it here, not I. But there's nothing in it worth pinning. We only keep our tea and sugar there. Our clients are tetchy for tea and sugar if we leave them about."

"And do you make a habit of picking the locks of Mr. Stuckey's desk? That's what you're trying to do, isn't it?"  
"It's what I'm doing if this handle, found that it was locked, crossed to the desk and pulled at the top left-hand drawer. ## The DAILY WASHINGTON MERRY GO ROUND

TRADE MARK REGISTERED

WASHINGTON — The nation to watch in the European situation is not so much Germany but Italy.

The Germans have been in the headlines, but actual fact is that had it not been for the bombing of the Deutschland, they were about ready to quit the Spanish war.

Not so with the Italians, however. Mussolini considers Spain his meat. He wants a government at the western mouth of the Mediterranean which will be under his thumb. This is a part of his plan to recreate the old Roman Empire.

The basic trouble in Europe right now is the increasing conflict of interest between Great Britain and Italy. Some day they are going to clash.

**Mediterranean War**  
The conflict is not in Spain, but in the length and breadth of the Mediterranean—even beyond. Here are important instances in which the Italians recently have got in the British hair:

1. The Fascist radio station at Bari, southern Italy, sends out a constant stream of anti-British propaganda—in Arabic, Egyptian, Hindustani and Jewish.

2. To get an audience for this, Italian salesmen have virtually given away radio sets in the Near East, specializing on cafes, at which the average Arab loves to sit. The effect on British prestige has been deadly.

3. Not long ago Indian tribes on the northwest border of India appeared with modern rifles and machine guns, where they had been armed with old-fashioned muskets before. The arms were of Italian make.

4. Mussolini has continued fortifying the Libyan border adjacent to Egypt and has built a concrete highway over the desert to reach it. On the other side of Egypt is Ethiopia, which he also rules.

5. The Italian port of Massaua, in Eritrea on the Red Sea, and the island of Pantelleria between Sicily and North Africa, are now as well fortified as any British naval base in the Mediterranean, are a very real threat to the Empire trade route to India and Australia.

Chief factor on which war in the Mediterranean hinges is the decision of one man as to whether it is better to clash now with the British while they are still unprepared, or wait till later.

While they are still unprepared, or wait till later.

That one man is the never predictable Benito Mussolini.

**Kentucky Gentleman**  
New York's brilliant, conceited Sirovich-Congressman, William I. Sirovich, had just concluded an address on the Supreme Court, in which he referred to the late Justice Samuel P. Miller, of Kentucky.

Kentucky's Congressman John M. Robison immediately rose to extol Miller, a native of Robison's town of Barbourville, whereupon Sirovich, speaking without notes, produced this:

"I am reminded that all great events have responded to the mystic number 3. The ancient Brahmins had three gods, Brahma, Vishnu, and Shiva. The Hebrew patriarchs were Abraham, Isaac, and Jacob. The Egyptian deities were Osiris, Isis, and Horus. Christianity has Father, Son, and Holy Ghost. Masoury has King Solomon; Hiram, King of Tyre; and Hiram Abif."

"And Kentucky has produced three great men that I love: Abraham Lincoln, Dr. Samuel F. Miller, and the distinguished gentleman from Kentucky (Mr. Robison)."

**Warring Apostles**  
Dr. Francis Townsend's fusillade against the President's court bill certainly has kicked over the apple cart in the Old Age movement.

Captain Delbert Brunton, Townsend's hand-picked Washington representative, has resigned in disgust. Gilmore Young, able national secretary, is threatening to quit. Congressional supporters caustically have told "the good doctor" to hold his tongue. And in the current issue of The Townsend National Weekly, editor J. W. Brinton gives his boss a snappy word-lashing.

"Last November 16," he reminds his readers, "Dr. Townsend said: 'I hope all Townsendsites will join me in declaring their loyalty to the President for the coming four years.' ... Now the good doctor is not following his own advice."

"Dr. Townsend should realize that people still do some of their own thinking... that you can lead them but not drive them."

The man reputed to have sold Townsend his Supreme Court strategy is Blair Coan, one-time henchman of the notorious Attorney General Harry Daugherty, now close adviser of the "good doctor." A showdown over Coan is expected at the annual convention in Washington July 21-25.

Whether the dissenters can oust Coan and force Townsend to relinquish his one-man rule remains to be seen. But whatever happens a merry battle is coming, and its outcome may determine the fate of the movement.

If Townsend wins and Coan stays, a big split-up is certain.

**Merry-Go-Round**  
One Republican has a hand in framing the new wages-and-hours bill—John G. Winant, former head of the Social Security Board.

Florida's Congressman J. Hardin Peterson watched his boy, J. Hardin, Jr., put on a radio stunt the other day. Proud father Peterson was moved to tears and had to withdraw from the room.

Congressman Sol Bloom of New York is not satisfied with the circulation of 50,000 copies of his book, "The Story of the Constitution" (price 10 cents), but hopes to touch the million mark.

No 10-cent book is Maury Maverick's forthcoming "A Maverick American." It will sell high, in spite of Maverick's struggle with the publishers to fix a low price.

Instead of falling off, imports of Argentine corn are sustained at a high figure. Last week's arrivals totaled just under 2,000,000 bushels, one shipment of half a million bushels being landed at Chicago.

## SOCIETY AND CLUBS

## Garden Club Meeting

The regular monthly meeting of Circle Three garden club was held at the home of Mrs. W. W. Wisdom, Sr., in Lincoln. The assisting hostesses were Mrs. T. T. Donaldson and Mrs. W. W. Wisdom, Jr.

The meeting in May is an annual event at Mrs. Wisdom's, whose beautiful home and graciousness are always a source of pleasure to members and guests.

The social hour following a dainty dessert luncheon was spent in the garden and among the exhibits of beautiful flowers which filled the house in such abundance as to earn the agnomen of "second flower show."

At the close of the business session the following program was presented:

Mrs. E. L. Pulliam—Summer Blues.

Mrs. C. L. Carter—Mary Wants a Blue Garden.

Mrs. G. W. Chambers—The Kingfisher.

Mrs. J. T. Turner—Beech Tree.

Several of the guests were called upon to talk informally of the "blues" in their gardens and Mrs. Hans Baasch gave her impression of America and told several flower legends of Norway. The following guests were introduced and welcomed:

Mrs. C. J. Labahn, Mrs. Hans Baasch, Mrs. A. A. Ferguson and house guest, Mrs. Hooker; Mrs. M. P. Shy, Mrs. Landon Welch, Mrs. Herbert Seifert, Mrs. James Bagby, Sedalia; Mrs. H. A. Nixon, Mrs. Jack Calbert, Mrs. George Jones, Mrs. S. O. Brill, Mrs. Clarence Schnabel and Mrs. Ina Moulden, Ionia.

## Dance Recital

The pupils of Spookie Fischer's School of Dancing were presented in a spring recital at Convention Hall, Liberty Park, Thursday night by their teacher, Mrs. Everett Edwards of Warrensburg, formerly Miss "Spookie" Fischer. ## ADMITS ESCAPE FROM HOSPITAL

A man about 39 years old who said he was George Gama, formerly of Glenstead, Mo., and readily admitted that he had escaped from the state hospital at Fulton, Mo., was taken in custody on East Sixteenth street Thursday afternoon by Motorcycle Officer Herman Fischer.

The police department communicated with officials at Fulton and learned that a man answering the description of Gama had escaped from the institution there May 20. An official for the Fulton institution will come to Sedalia today to determine if the man being held in the county jail here is the escaped inmate.

## CHILDREN BURNED IN AN EXPLOSION

By The Associated Press.

ST. CHARLES, Mo., June 4.—Five children, who sought to rescue a litter of kittens trapped in a rain-flooded basement, were in a hospital today with severe burns suffered last night in a sewer gas explosion. Four others were less severely burned and were able to go home after treatment.

The children, carrying a lantern, were descending a narrow stairway into the basement when there was a dull explosion and a spurt of fire. Their clothing ignited, some of them ran for several blocks before neighbors could stop them and beat out the flames.

Firemen, called to extinguish the blaze which followed the explosion, said the blast was caused by gas forced into the basement from a sewer paralleling a creek, which had overflowed during the rainstorm and flooded two blocks of residences. A contributing factor, they said, was a film of gasoline on the water.

The five children most seriously injured were Harold Hallemeyer, 13 years old; Albert Jones, Jr., 12; William Limpert, 12, and his sister, Madonna, 14, and Leonard Guthrie, 15. Less seriously burned were Melvin Hallemeyer, 15, a brother of Harold; Betty Tucker, 13, June Cullum, 8, and her brother, Robert, 6.

## JEWISH CITIZEN OF U. S. IS EXECUTED

BERLIN, June 4.—Helmuth Hirsch, 21-year-old Jewish citizen of the United States who has never been in America, was executed by a mechanical guillotine at dawn today for an alleged treasonable plot under the explosives law.

It was learned on good authority that the charges, hitherto presumed to have been based on an alleged plan to kill Adolf Hitler, instead were connected with accusations that Hirsch wanted to assassinate Julius Streicher, high Hitler aide and the Reich's leading Jew-hater.

Clemency apparently was refused by Der Fuehrer—the only one able to give it—because authorities believed Hirsch acted for Otto Strasser, Hitler's bitter enemy, who now is in exile in Prague, Czechoslovakia, the youth's home.

Execution occurred in Plötzensee prison despite four clemency appeals by United States Ambassador William E. Dodd.

Hirsch achieved American citizenship through his grandfather.

American diplomatic and consular officials, in pleading vainly for Hirsch's life, urged clemency on these grounds:

1. That he was a citizen of the United States, where the death penalty is not given for an intended act.

2. He was very young and probably influenced by older people.

Otto Strasser, for whom the authorities suspected Hirsch was a tool, is the leader of the so-called "black front" of exiled anti-Nazis which is pledged to overthrow Hitler.

## LOOKS TO REVIVAL OF DAM PROJECTS

By The Associated Press.

WASHINGTON, June 4.—Rep. R. T. Wood (D-Mo) said yesterday the creation of an Arkansas valley authority, one of seven urged by President Roosevelt after the pattern of the TVA, would "without question" revive the Table Rock, Mo., hydro-electric and flood control project on the White River.

Wood said the President had expressed himself as "very favorable" to the Table Rock project which has been discussed more than 15 years and which Wood said was "one of the most feasible" projects of its kind in the country.

Wood also predicted a proposed hydro-electric project on the Osage river at Osceola, Mo., would be given careful consideration for inclusion in the suggested Missouri valley authority program.

## FACES OCEAN TRIP IN AN "IRON LUNG"

By The Associated Press.

SHANGHAI, June 4.—Smiling bravely against the ordeal of a journey to Chicago in an "iron lung," Frederick B. Sante, Jr., 26-year-old paralysis victim, today was wheeled into Shanghai general hospital.

The most critical moment of the Peiping-Shanghai ride in the mechanical respirator came when the truck carrying him a few blocks from the train to the Shanghai hospital bumped over the rough streets.

The young man, stricken 14 months ago in Peiping on a world cruise with his parents, will be carried aboard the liner President Coolidge which sails Sunday for San Francisco.

## MRS. CRUZEN TO LABOR POST AGAIN

By The Associated Press.

JEFFERSON CITY, June 4.—Governor Stark announced six appointments today, the chief one being the re-naming of Mrs. Mary Edna Cruzen of Gallatin as state commissioner of labor and industrial inspection.

Mrs. Cruzen's term will expire July 3, 1939. The governor said she was "strongly endorsed" by all labor groups.

The governor also reappointed W. A. Cable, editor of the Hannibal Courier-Post; and J. C. Houck, Shelby, as members of the board of regents of the Northeast Missouri Teachers college, Kirksville, for terms ending January 1, 1943. Both are Democrats, and were widely endorsed, the governor said.

The following were named to the board of curators of Lincoln University, for Negroes, at Jefferson City:

C. C. Hubbard, Negro, a Republican, principal of Lincoln high school, Sedalia, replacing Victor H. Collins, Jefferson City.

Dr. William J. Thompson, Negro,

night an orchestra dance was held, with the ladies adorned in aprons and the men coatless and tieless.

So well did the public receive Akim Tamiroff as a big time gambler-dressed in modern clothes—that he may never wear a kimono, a Tiffany Thayer story of the slot machine racket, which opens on Sunday for two days at the Liberty Theatre.

a Democrat of Kansas City and Washington, D. C., reappointed.

Joseph L. McLemore, Negro, a Democrat, St. Louis, reappointed.

All the terms expire January 1, 1941.

Fractures Shoulder in Fall

Max Raines, son of Mr. and Mrs. L. R. Raines, 521 West Fourth street, received a severe fracture of the right shoulder in a fall Wednesday evening. It was necessary to place Max in a steel brace where he will probably remain for six weeks. He is getting along nicely.

Parking Cases in Court

Charles F. Higham, charged with parking in a bus zone, failed to appear in police court this morning and his \$1 cash bond was forfeited.

B. H. Wenner, charged with over-time parking, was fined \$1.

## NINE ACQUITTED IN CONSPIRACY CASE

By The Associated Press.  
ST. LOUIS, June 4.—Charges of conspiracy to defraud the government on PWA contracts against five

plastering contractors and four union leaders had been erased today by a jury in U. S. District Judge George H. Moore's court.

The verdict, returned late yesterday after more than five hours of deliberation, acquitted Peter Anderson, Harry Niehaus, Frank B. Rowan, George F. Robertson, Jr., and John F. Carroll, contractors, and Vincent Lee, his brother, Irving Lee, William Anderson and Harry Hagen, union officials.

The jury found the government's evidence failed to substantiate charges that the United States was defrauded and its activities impaired and obstructed by the defendants on plastering jobs at the Municipal Auditorium area, the Nurses' Home and South Ward at Homer G. Phillips hospital for Negroes, and the Pattonville school in St. Louis county.

## KING GIVES BOND IN PAYROLL CASE

JEFFERSON CITY, June 4.—(AP)—Thomas King, of St. Louis, charged with feloniously defrauding the state of \$80 by misrepresenting himself as a legislative clerk, appeared voluntarily before Justice of the peace J. G. Leslie late Thursday, posted \$1,500 bond, and was released pending preliminary hearing June 24.

The complaint, launching the first criminal action in the inquiry into charges of legislative payroll irregularities, was filed by the attorney general's department and Serg. E. O. Clark, state highway patrol fingerprint expert who examined legislative warrants in custody of Carl F. Wymore, Cole county prosecuting attorney.

Alleges King "fraudulently represented to the speaker of the house that he performed services as a clerk and employee of the house from May 16 to May 31, inclusive, and as such was entitled to 16 days' pay at \$5 a day, or a total of \$80."

## SENATE AGREES TO A SALES TAX HIKE

JEFFERSON CITY, June 4.—(AP)—The 2 per cent sales tax and zinc tokens instead of milk bottle caps—were a step nearer being law in Missouri tonight, with senate acceptance by a 30 to 2 vote of the report of a senate-house conference committee on the bill. A house provision requiring use of "Missouri-mined zinc" for the tokens was put back in the bill by the joint committee, and a section inserted quieting the fears of cities aroused by Senator Clyde Cope's amendment barring city sales taxes.

The expiration date of the proposed law also was changed from May 31 to December 31, 1939, giving the next legislature plenty of time to extend or modify it.

## SAVED BY HAVING RUBBER SOLES

By The Associated Press.

POPLAR BLUFF, Mo., June 4.—Lighting hit Robert Hall, 57-year-old farm hand near Broseley yesterday afternoon and doctors marvel at the fact that he is still alive. His clothing was torn into shreds, his shoes ripped from his feet and his lenses in his eyeglasses were shattered by the bolt. Hall was unconscious for some three hours before found by other workmen in the field but today he appeared to be recovering. He credits rubber soles on his shoes with having saved his life.

### Gave Birth To Babe

Mrs. Clyde Benz, of Ionia, was admitted to the Bothwell hospital Thursday afternoon, where she gave birth to a still-born babe.

## JEAN HARLOW, FILM STAR, HAD RESTLESS NIGHT

By The Associated Press.

BEVERLY HILLS, Calif., June 4.—Jean Harlow, ailing film star, passed a restless night after receiving an intravenous injection of a glucose solution to sustain her strength, her mother, Mrs. Jean Bello, said today.

Miss Harlow's illness has been described by Mrs. Bello as inflammation of the gall bladder and by her physician, Dr. E. C. Fishbaugh, as "just a bad cold."

## SAFES UNDISTURBED IN SUPPLY HOUSE THEFT

KANSAS CITY, June 4.—(AP)—The stickers on two large safes in the Elfield Hardware and Machinists' Supply Company here say, "No money in this safe," and the combinations are described below.

Thieves broke into the company's plant and stole \$200 worth of supplies. The safes were undisturbed. The sticker system followed payment of a \$69 bill for repairs following a previous robbery.

## Black Leghorns Found to Be Popular on Farms

The black-feathered sister of the White Leghorn is becoming increasingly popular on thousands of poultry farms for a number of reasons, says a poultryman in the Philadelphia Inquirer. First, the birds are extremely hardy and very healthy. Diseases common to other breeds, such as white diarrhoea, laying mortality on account of pickouts and cannibalism, are unknown in Black Leghorns. They require no bloodtesting, no vaccination or coddling of any kind, and thousands of farmers are depending on them for their living. They lay large white eggs and lot of them and are the only black-feathered fowl that dresses yellow for market purposes. Their flesh for the table is not excellent.

In England they are the leading breed. At the English egg-laying contests they have won every point for several years—most eggs, largest eggs, lowest feed cost.

## Farm Hints

Hatching eggs held longer than 10 days decrease in hatchability.

California produced enough eggs in 1935 to serve two to every citizen of the United States six mornings of the year.

Dry clean hay is sometimes used in conjunction with gravel or sand for brooding litter. It is not as satisfactory as straw.

## CHARGES ATTACK IN DRINKING PARTY

By The Associated Press.

LOS ANGELES, June 4.—A film extra girl's story that she was ravished during a hard-drinking party at which more than 100 girls were required to entertain visiting studio salesmen prompted the district attorney's office today to consider a grand jury investigation.

Since Patricia Douglas, 19, complained through her lawyer, William J. F. Brown, that she had been plied with liquor, beaten by a man and attacked, other extra girls have demand legal action.

District Attorney Buron Fitts said he had not decided whether grand jury indictments would be asked or the complaints handled individually. His investigators have taken statements from nearly a dozen other girls.

Miss Douglas, in an affidavit, told of receiving a telephone call to report to a studio wardrobe department with other extras. Half were given Spanish and the rest cowgirl clothes, she said, and all transported to the ranch in buses the night of May 5, expecting to take part in a picture.

Instead, Miss Douglas charged, they were assigned to tables and paired off with men guests at a studio's national sales convention. She said she asked for a soft drink but was given whisky, which made her ill. As she left the building the man followed, beating and attacking her in a car where she rested, she said.

## THREAT OF FLOOD AT CARLSBAD, N. M.

By The Associated Press.

ALBUQUERQUE, N. M., June 4.—A warning to the 3,700 residents of Carlsbad to prepare to abandon the city by Saturday because of onrushing floods was issued today by L. E. Foster, superintendent of the reclamation service there.

Mayor John E. Sears appointed committees to arrange for abandonment of the town if it becomes necessary and early today instructed

## DR. STAUFFACHER ADDRESSES CLUB THURSDAY NIGHT

### Business and Professional Women Meet at Kueck's Tavern

Doctor Gordon Stauffacher, physician and surgeon, coroner of Pettis county, was the guest speaker at the meeting of the Business and Professional Women's club, at Kueck's Tavern Thursday night. He spoke on "How to Keep Healthy."

Defining health as a quality that makes a person live the best to serve the most, he stated that its importance is noticed daily in greetings such as "How are you?" or in complimenting a person the phrase "You are looking well," is frequently used. He spoke of the prevalence of such diseases as heart disease, cancer, arthritis and mental illnesses of today as compared with smallpox, typhoid, diphtheria and such diseases which were more frequent in years past. He gave two reasons for the prevalence of cancer, one that it is a disease commonly known to older people, and with people living longer today they have a better opportunity to develop it, and secondly because physicians are diagnosing it more frequently. He complimented Sedalia upon its lack of smallpox the past year, stating that there were epidemics in many other cities nearby.

Suggesting that people check up on their health often, particularly between the ages of 35 and 45, he mentioned their diet, fresh air, to be out in it at least an hour every day, drinking a pint of milk daily, getting up in the morning feeling rested, losing a couple of nights rest and still feeling fresh, increasing in weight. The increase in weight, he said, caused extra action on the heart and blood vessels and often is the cause of heart disease.

At the close of his talk Dr. Stauffacher was asked many questions which he answered.

Dr. Stauffacher was introduced by Mrs. Florence Thomas, chairman of the health committee, who also presented Miss Mary Hausam. She gave two vocal solos. Miss Hausam was accompanied by Mrs. A. R. Beach.

The business session was presided over by Miss Susan Hurlbut club president, who introduced the guests, Miss Kathryn Miller, guest of Dorothy Bricken, and Mrs. Stauffacher.

An invitation was read asking the club to attend the Junior Chamber of Commerce dinner at Hotel Bothwell Monday night, at which time Brigadier General Edward M. Stayton will speak on "Keeping the United States Out of War."

Miss Juanita Young, program chairman, announced that the next social meeting, June 17, will be at the Mount Ozark Club, known as Milton's Cabin. It will be a picnic supper, followed by a candlelight installation service.

Miss Hurlbut called on Miss Hazel Palmer, incoming president for a few remarks.

that action will be taken on it during the present session.

"It is felt that during the last few months some changes have occurred which modify the situation, but that there still exists the necessity for the injection of new blood into the court.

Robinson's fellow legislators assumed that the "changes" to which he referred were the retirement of Justice Van Devanter and the court's validation of several major administration laws.

The senate leader, who has been boomed by his colleagues for appointment as Van Devanter's successor, said he was not a candidate. He added that he had not discussed the vacancy with the President.

Except for Burke, few members of the opposition would comment until the specific modification proposal was disclosed.

of 28 independent companies, affecting an estimated 750 additional employees.

A New York subway line was threatened with a strike of 6,000 employees. C. I. O. officers demanded reinstatement of several employees who they claimed were dismissed "arbitrarily."

A peace conference between the leader of the union forces and Ohio's governor held the attention today of more than 70,000 idle workers on the far-flung steel strike front.

Philip Murray, head of the Steel Workers Organizing Committee, agreed to meet with Gov. Martin L. Davey at Columbus but his terms for peace apparently precluded an immediate end to the nine-day dispute.

Murray declared the strike would continue until a union contract was signed. It was the refusal of the Inland and Republic Steel Corporations and the Youngstown Sheet and Tube Company to sign an agreement on collective bargaining that led to the strike call.

No Change In Gold Policy  
WASHINGTON, June 4.—(AP)—President Roosevelt told a press conference today there had been no change in the government's gold policy.

He advised questioners not to worry much about the gold situation. He gave the advice when asked about renewed reports of possible changes in the policy.

## SLASHES MADE IN REVAMPING OF OMNIBUS BILL

### Numerous Cuts and Eliminations In Appropriations In Senate

By The Associated Press.  
JEFFERSON CITY, June 4.—The senate—which got halfway through with its task of revamping a \$18,600,000 house omnibus appropriations bill in morning, afternoon and night session yesterday—plugged ahead with its task today.

Indications were the major cut recommended by the committee—elimination of a \$4,000,000 item for payment of back old age assistance appropriations—would not be reached for a vote until late afternoon. All changes made in the bill must be approved by the house. In nearly every case totals were left equal to or above those of two years ago.

The two-hour session here last night ended when Chairman J. S. Rollins of the senate appropriations committee, who is presenting the 160-odd amendments to the bill, agreed that "we all have earned our dollars for today." Rollins, as committee chairman, has been putting in 16 hours a day in recent weeks.

Among the cuts and eliminations which have been approved by senate vote:

Elimination of a \$175,000 item for purchase of additional grounds near the capitol.

Reduction of the appropriation for the naval militia from \$25,780 to \$5,000, chiefly by elimination of a request for boats for use in flood relief work.

Elimination of \$7,500 asked to change the lighting system in the house of representatives.

Elimination of \$3,750 each for the American Legion and Veterans of Foreign Wars, and \$1,000 for the United Spanish War Veterans, for sending drum corps and bands to state and national conventions. This was from the athletic commission fund.

A \$25,000 item for payment of bounties on coyotes and wolves, eliminated.

Reduction by \$34,460 to \$114,300 for the Missouri geological survey. Reduction of \$71,720 in the totals for the state department of health to \$235,000.

Reduction from \$155,825 to \$50,000 in the allotment to the state park fund up to July 1, when the conservation commission takes over.

A reduction by \$37,500, to \$115,000 for the state purchasing agent. This allotment is the same as last biennium.

A reduction of \$39,800 in the amount approved for the liquor control department, leaving \$474,340.

A \$25,000 reduction, to \$225,000, in the amount allowed for a Missouri exhibition at the New York World's fair and at the Golden Gate exhibition at San Francisco.

Elimination of a \$40,000 item for aid to county and district fairs. New items put into the house bill, or increases recommended, include:

\$60,000 out of the general revenue for the Missouri state employment service, to be transferred from the department of labor to the unemployment compensation commission.

\$750,000 out of expected federal funds for use of the state employment service in connection with unemployment compensation.

A \$50,000 item proposed out of state funds for the compensation commission was defeated when Senator George Rozier of Perryville explained the new setup "will not require a dime from state sources."

A \$10,000 allotment to the insurance department for costs of fire rate litigation.

Addition of \$23,000 to funds allowed the state auditor, and \$28,000 to those given the state treasurer, for new office work in connection with the shift of direct relief entirely to a state basis.

### DISPUTED DOG BILL SANCTIONED

By The Associated Press.  
JEFFERSON CITY, June 4.—The dogs finished their running in the Missouri legislature today.

With acceptance by both houses of a conference committee report, final action of the general assembly was taken on a county local option bill by Representative Ed R. Caldwell, Ralls county, permitting counties to use dog tax collections to reimburse owners of livestock and poultry killed by canine marauders.

Under the present law, the dog tax goes into the county road dragging fund.

A senate amendment requiring owners of dogs in counties levying the tax to vaccinate the animals for rabies was rejected by the conference committee.

The bill was one of the most controversial of the session, and for days the dogs were figuratively raved about the legislature. Governor Stark had declared the measure of great importance to farmers.

Priest's Golden Jubilee  
JEFFERSON CITY, June 4.—(AP)—The Rt. Rev. Msgr. Joseph Selinger, D. S., pastor of St. Peter's Catholic church here, celebrated the golden jubilee of his ordination into priesthood today. Monsignor Selinger, who was born in Hannibal 78 years ago, has been with the church here since 1904.

Both were reported to have taken part in fighting in which leaders of the United Automobile Workers of America were beaten and chased off Ford property May 25.

### CLASSMATE OF KEYS QUADRUPLETS DIES

By The Associated Press.  
HOLLIS, Okla., June 4.—Death of Woodrow Burgett, Oklahoma City, killed in an automobile accident near Marlow, Okla., cast a spell of gloom today over the 22nd birthday party of the Keys quadruplets.

Burgett, a high school classmate of the quadruplets, was en route to Hollis to attend a 1933 class reunion at which the quads presided.

Flake Keys, father of the quads, left with a Hollis undertaker to get the body. Details of the accident were not available here.

It was the squad day in Hollis but the famous sisters, first quadruplets in history to graduate from college, withdrew from the day's festivities and remained at home.

Earlier, they presided at the annual breakfast of their high school class.

Expert Computes Value  
of Farm Women's Work  
A farm woman's labor over a period of thirty years is worth more than \$50,000, Miss Julia Newton of the Farm Credit administration told farm women at a convention held recently in Indianapolis.

In thirty years she would prepare 235,425 meals, for which labor at 15 cents a meal would reach the staggering total of more than \$35,000. Some of the other services the farm woman renders over a thirty-five year period, and their labor worth are:

Garments, 3,190, at 50 cents each, \$1,595; 35,400 loaves of bread at 5 cents each, \$1,770; 5,930 cakes, at 10 cents each, \$593; 7,960 pies, at 5 cents each, \$398; preparing 1,256 bushels of vegetables, at 50 cents a bushel, \$628; canning 3,625 jars of fruit, at 25 cents a jar, \$906; washing 177,525 pieces of laundry, at 3 cents each, \$5,331, and 35,640 hours of sweeping, dusting, and cleaning at 10 cents an hour, \$3,564.

Nine good-sized eggs are equal to a pound.

Geese are never troubled with lice, blackhead or roup.

To carry the 3,000,000 eggs sent to New England relief agencies required 20 freight cars.

An unhealthy, poorly developed hen or pullet is seldom profitable herself, and she may serve as a carrier of disease to the rest of the laying flock.

The same principle may be applied to the wear on the tractor. There is a definite amount of wear on the moving parts when the machine is running idle. This represents a loss to which is added the wear of carrying the load. Hence the greater the load the less the ratio of wear to work done. These two principles of fuel consumed and wear will apply as long as the tractor is not overloaded.

The farmer should plan his field and belt operations to use as nearly as possible the full power of the tractor. Devising multiple hitches to perform two or three operations at one time and using machines of a size suited to the power of the tractor aid materially in economically organizing farming operations.

Highway Legislative Body  
WILL BE CONTINUED  
By The Associated Press.  
JEFFERSON CITY, June 4.—Continuance of the special legislative highway program committee to make further studies for recommendation to the 60th general assembly was approved by the house of representatives today. Senate approval is expected.

The committee, composed of three senators, three representatives, the commission chairman and chief engineer of the state highway department, and six citizens named by Governor Lloyd C. Stark, is headed by Senator Michael Kinney of St. Louis, with representatives Ed R. Caldwell of Ralls county as vice-chairman.

The governor made the request that the committee be continued.

## REITERATES HONEST ELECTIONS PLEDGE

By The Associated Press.  
JEFFERSON CITY, June 4.—Governor Lloyd C. Stark reiterated today previous pledges of honest elections for Kansas City.

Replying to a question concerning naming of the Kansas City election board, he said:

"When the time comes to name the Kansas City board I will appoint men who will give that city honest elections if any four men can give them honest elections."

"I have said and I repeat that I will do everything in my power to give Kansas City, and all of Missouri, honest elections."

Indications were naming of the Kansas City board would be delayed for some time.

## ACCEPT REPORT ON TAX MEASURE

By The Associated Press.  
JEFFERSON CITY, June 4.—The senate and house accepted the conference committee report today on the bill providing for the remission of penalties, interest and costs on delinquent property taxes, re-passed the measure and sent it to governor Lloyd C. Stark.

The conference recommended that a provision exempting Jackson county from the act be deleted from the bill.

The bill provides that all penalties on taxes due prior to Jan. 1, 1937, be remitted if paid by June 30, this year. Remissions for the remainder of the year—between June 30 and August 31—75 per cent; between August 31 and October 31, 50 per cent; and between October 31 and December 31, 25 per cent. After December 31, all penalties, interest and costs would be restored.

The state auditor's office has estimated that approximately \$25,000,000 in real estate taxes are delinquent.

The house vote was 103 to 0, and the senate vote 24 to 4. The measure will go into effect immediately upon signature by the governor, as it carries an emergency clause.

Rev. Glenn to Be  
GUEST SPEAKER  
The Rev. John C. Glenn, presiding elder of the M. E. church, South, Kansas City district, will be the guest speaker at a banquet at the First Christian church Tuesday night, which will be attended by about two hundred and fifty men.

The banquet is being arranged by the organization of churches affiliated with the Ministers Alliance.

Rev. Glenn is an exceptionally splendid speaker and will bring a worthwhile message.

## Creamed Comments On S.S. Lesson

Joseph's readiness for service, Genesis 41:33-44 for Sunday, June 6.

Joseph is one of the few Bible characters against whom no sin is imputed. He was sorely tempted by the enthroned power in Pharaoh's wife but it was his rule to honor God first and foremost. For his not yielding to temptation, he was imprisoned, but God was with him and by his faithfulness there, and his unusual power of interpretation, he was brought back to tell the king the meaning of his dream—that there would be seven years of plenty followed by seven years of famine.

V. 33. "Now therefore let Pharaoh look out a man discreet and wise, and set him over the land of Egypt." Joseph suggested a wise provision for the future as touching temporal things. In all things a premium ought to be placed on good judgment. Rulers ought especially to be discreet and wise.

V. 34. "Let Pharaoh do this, and let him appoint overseers over the land, and take up the fifth part of the land of Egypt in the seven plentiful years." Here is a good principle; a government in times of prosperity ought to so adjust taxes and expenses so as to have a surplus in the treasury to meet the demands of depression years which seem to come periodically.

V. 35. "And let them gather all the food of these good years that come, and lay up grain under the hand of Pharaoh for food in the cities, and let them keep it." Since most of the people lived in the cities, distribution of food stored there would cut expenses—a point showing wisdom and discretion. God would have us provide against the day of want rather than spend as we go and then go on relief or call for government doles.

V. 37. "And the thing was good in the eyes of Pharaoh, and in the eyes of all his servants." Wise people acknowledge wisdom in others and do not vainly imagine all the wisdom is in their own minds. These people also were wise enough to attribute Joseph's superior wisdom to God. This fact is seen in the two following verses when Pharaoh saw Joseph as the man of the hour.

V. 40. "Thou shalt be over my house, and according to thy word shall all my people be ruled; only in the throne will I be greater than thou." Joseph had not sought the place but the place sought Joseph. However, the place did not fall to him by accident, for he had prepared himself for it and showed his fitness. Obedience in a small place is the best way of promotion. In serving others, Joseph thought little of himself or what it might profit him, and so there was developed in him an inner character which really meant more than the honor of ruling.

V. 41. "And Pharaoh said unto Joseph, See I have set thee over all the land of Egypt." The power and influence of Joseph increased. First he was a recognized power in the king's court. The hope of the world is the increased power and influence of God's children.

Vs. 42, 43. "And Pharaoh took off his signet ring from his hand, and put it on Joseph's hand, and arrayed him in vestures of fine linen, and put a gold chain about his neck; and he made him to ride in the second chariot which he had; and they cried before him, Bow the knee." Badges and symbols have their significance when properly worn. The same is true of names of persons. A name is good and has meaning when the one so named has an inner character that is worthy. So it is that when we say "He has a good name" we mean he is a good man.

V. 44. "And without thee shall no man lift up his hand or his foot in all the land of Egypt." Joseph was a type of Christ, the God in whom we move and live and have our being.

## Discussion on Questions S.S. Lesson

Joseph's Readiness for Service, Genesis 41:33-44 for Sunday, June 6.

1. What are some of the future things for which we ought to make preparation?  
2. What good may come out of famines?  
3. What was the secret of Joseph's ability as a ruler?  
4. What are some of the values that come to us through faithful work?  
5. How is godliness in a ruler an advantage to a nation?  
Hugh Black says, "Joseph saw the dignity of service and took delight in serving and helping others. The deepest reason which explains his influence was his faith. The inspiring source of his life and of his character was religion."

## World Religious News

There are now one million Christians in India, and the group is being added to at the rate of twelve thousand per month.

Many of the offerings at the church services during the summer in Alaska missions along the Tanana River, were muskrat skins.

At a convention of Mormon leaders, held in Denver two months ago, a \$3,000,000 construction program was outlined. The principal buildings would be \$1,000,000 for temples in Idaho and California cities. There are between 50,000 and 75,000 Mormons in California, and more than 200,000 in Idaho.

To a gift of \$1,300 from the Christian Council of Boston, Dr. Kagawa has added 10,000 Yen, making possible the erection of a much needed settlement building in a congested industrial section of Osaka. This building is to be known as "Boston House" with a section of it called "Puritan Institute."

Columbus, Ohio, May 2.—Triumphs of Christian missions during the past 100 years in all parts of the world will be elaborately celebrated in Memorial Hall, Columbus, May 27 to June 2, in connection with the 14th annual General Assembly of the Presbyterian church in the U. S. A. The 1,500 expected visitors will witness a pageant with 200 performers, a national oratorical contest participated in by sectional winners from east and west, a missionary drama, and presentation of the winners of centennial sermon and hymn contests, and will greet representatives of fourteen national churches, established throughout the world since 1837 as a result of the activities of Presbyterian and other missionaries.

The International Christian Crusade, organized in Canada, in 1928 has now extended its work to other countries. It is aimed at the atheistic movement that is sweeping the world. This atheistic movement welcomes into membership every cult and ism that will deny Calvary. They seem to realize where the strength and the hope of Christianity lies. This new atheism claims a membership of over 17,000,000. It received a charter in 1925.

**Let's Go To Church**  
"My eyes see because of God, and I go to Him when my vision becomes blurred," wrote a young college student. "I go to Him whenever I need aid of any description, and I go to the place wherein I shall find the closest union possible—my church."

"I go to church because in it alone do I find that peace which puts my mind and spirit at rest."

"I go to church because I have an abstract, if not concrete, belief in my God, always I can depend on it, as the pilot does the beacon."

"I go to church because in return for my seeming loyalty and love, there comes the compensation of a clear conscience, a happy soul, and a clean slate."

"I go to church for courage to meet life's perplexities, for the challenge to noble living, for sustained faith in life's beauty and worth."

### How Does God Guide Us?

Stanley Jones says: "God guides us in many ways. Among these are six outstanding ways: circumstances, enlightened Christian intelligence, spoken or written words of others, the scriptures and the inner voice."

As to circumstances, often there is an expected situation in such accordance with God's will that we call it Providence. As to enlightened Christian intelligence, God has given us a mind, and He expects us to use it in learning all the facts as to the best way.

As to spoken and written words of others, God has put a premium on brotherhood, an aspect of which is that of sharing ideas freely to each other. As to the scriptures, we must take into account God's revealed will in the past from which we may deduce guiding principles.

As to the inner voice, there often arises an overwhelming conviction deeper even than conscience which is born of God. So it is in the combination of dependable factors that our guidance is determined.

### The Little Jobs

"I never could understand why they gave that scholarship to Arthur instead of me," puzzled Ralph. "I made a better grade than he did on the examination." "That may be," acknowledged the teacher, "but more things were taken into consideration than the one examination. Daily work and grades are what really counts." "You must remember that practically all the big jobs which we see accomplished are really gained or made possible by the little jobs done well. When the big job ever comes later. When the big job comes, it will usually be found to be nothing more than a composite mass of little jobs. What better preparation can there be than to do each little job as thoroughly as we would the biggest one imaginable?" The thing that matters is the cumulative effect of many little jobs done well.

### Worth Remembering

Do unto others as though you were the others.  
Don't envy the man who can't do what you can't—cultivate him.  
Some people aim at nothing and hit the mark every time.  
A man is like a tack—he gets only as far as his head will let him.  
Another reason a man is like a tack is that he doesn't get very far until he is knocked.  
Work to win in the game of life.  
You find yourself refreshed in the presence of cheerful people. Why not confer that benefit upon others?  
It is not what you have, but what you are that determines what you are worth.  
No voyage is good unless you deliver the goods.

## ATTENDANCE IN BIBLE SCHOOL GROWS

The Vacation Bible school of the First Baptist church has been going on all this week. The attendance has grown every day until it has reached over one hundred. The number is expected to increase still more the second week of the school. The parade last Tuesday was enjoyed by all. The children brought their dinners today and enjoyed a picnic together. There will be two more weeks of the school and children who are not in vacation Bible school are cordially invited. There is no tuition and no books to buy. It is an opportunity for enjoyment and instruction.

## Joseph's Readiness for Service

## ILLUSTRATED SUNDAY SCHOOL LESSON

Scripture—Genesis Chapters 37, 39, 40 and 41.

By the Rev. Alvin E. Bell and Alfred J. Buescher

Jacob loved his son Joseph more than any of his other sons, and gave him a coat of many colors. This and certain dreams Joseph related of his brethren approving to him angered them greatly.

They first planned to kill Joseph. Then they decided to sell him as a slave to be taken to Egypt. They dipped Joseph's coat into blood and led their father to believe a beast had killed Joseph.

In Egypt Joseph became the slave of Potiphar, an officer. Tempted to sin by his master's wife, Joseph spurned her and she had him put into prison.

Joseph was released from prison to interpret certain dreams of Pharaoh, in which God warned Pharaoh in seven years of plenty to prepare for seven years of famine.

 Cyclone Leahy vs. Jack McDonald  
 Two out of three falls to a finish.  
 Farmer Mack vs. Mack Kolonais  
 One fall or thirty minutes.

A double main event of two finish matches will feature the opening card in a new series of wrestling shows starting tonight at the Liberty Park ball diamond. The first bout of the show, presented under the auspices of the local Elks' lodge, is scheduled for 8:15 o'clock.

The two headline battles are booked for two falls out of three with no time limit and they will be augmented by a one-fall or 30 minute preliminary.

While all of the principals on tonight's card will be making their first appearances in Sedalia, Tony Bernardi, Little Rock wrestling mogul for whose syndicate the rappers perform, declares all of them are headliners throughout the southwest.

"Bob Wagner and Frank Kirkland are outstanding wrestlers and Jack McDonald is one of the toughest light heavyweights in the business," Bernardi said.  
 "Promoter Gideon demanded an outstanding card to open his new show in Sedalia and I believe the fans of Central Missouri will voice their hearty approval of the program arranged," the syndicate leader added.

Prices have been reduced to 25 cents and 41 cents and at the opening show a lady will be admitted free with each paid admission.

## Dean Captures the Popping Off Title for the Seventh Year

Suspension to Be Lifted

NEW YORK, June 4.—(AP)—Despite Dizzy Dean's continued refusal today formally to sign any statement backing up his verbal denials of alleged controversial statements, the suspension of the Cardinal pitcher ace was ordered lifted by Ford Frick, president of the National League, effective within 24 hours.

NEW YORK, June 4.—(AP)—Cooler and tugging cheerfully on his bright red suspenders, Dizzy Dean sat down in his hotel room and won the major league pop-off championship for the seventh year running.

Ole Diz was far from downhearted over the indefinite suspension plastered on him by President Ford Frick of the National League. Instead, he let loose an oratorical blast that was right brutal with the king's English at times but free from all suspicion of a balk.

"I ain't gonna sign no papers for nobody, no time and no how," he roared to a room full of newspaper reporters. "Say, when does this Frick's term as president of the National League expire anyway?"

"At the end of this season," he was told, "but you can bet your golf clubs he'll be re-elected." "Well, I'm not gonna help him," shouted Dizzy. "All the guy wants to do is to make a heel out of me and a hero out of himself. If he stays in office very long, why he'll have us wearing tennis shoes. Why, we never had any trouble when Highlander (John Heydler) was president."

A little fellow, who said he represented a movie company, jumped up to Diz and advised him to keep quiet. Then he pleaded with the reporters:

"You fellows can't quote him on all this stuff. It'll ruin him." "Ruin me, hell," said Diz. "I got mine and the National League can have baseball. I'm not gonna sign any papers."

"Now Diz," pleaded the movie

man, "how can I make a movie hero out of you if you pop off like this? You reporters ought to be ashamed of yourselves."

"Hey, pipe down," said the huskiest reporter in the room. "We'll interview you next."

"Old Diz" and Frick were still at swords' points today with the Cardinals' ace right-hander threatening all kinds of action against the National league in general and its youthful president in particular.

Standing pat on his refusal to sign an apology for a series of alleged statements against Frick, Umpire George Barr, and the league, Dean declared he would carry his case to Commissioner K. M. Landis and, then, if necessary, "sue Frick and the National league for plenty—at least \$250,000—for depriving me of my job."

Meanwhile the heads of the other clubs in the league refused to be drawn into the controversy. For the most part they refused to comment on the deadlock with their president and one of the circuit's leading hurlers.

Outside of appealing to Landis for hearing, after a 10-day interval, Dean had only one other recourse. That was to change his mind and sign a formal disavowal of his alleged statements, which included, among other things, the calling of Frick and Barr "the biggest crooks in the National league," at a fathers' and sons banquet in Belleville, Ill., May 25.

This is exactly what Dizzy refused to do yesterday after a two-hour conference with Frick, Manager Frankie Frisch of the Cards and the club's secretary, Clarence Lloyd. During the conference Sam Broadon, the St. Louis president who was reached by telephone, twice urged Dean to sign but Dizzy remained adamant.

"The next move is up to Dizzy," said Frick.

Meanwhile the suspension was costing Dean approximately \$160 each day in salary, based upon his estimated yearly salary of \$25,000.

## POLICE TEAM OF KANSAS CITY TO PLAY ATHLETICS

Local Ball Club to Face Strong Rival Sunday at Liberty Park

The Sedalia Athletics baseball team will meet its strongest opposition of the season Sunday when it clashes with the touted Kansas City Police team at Liberty Park in a game to be started at 3 o'clock.

Humphrey, a former Boston Red Sox hurler; Kammert, a former American Association pitcher, or "Nig" Cooley, a veteran semi-pro star, who is known to many Sedalia fans as he has appeared on the local diamond several times, will do the pitching for the Policemen, while young Gene Horner will be on the firing line for the Athletics.

Al Gormley, who performed here as a member of the strong Hutchinson Electric team several years ago, will be at first base for the visitors; Shoemaker on second; Adamson, a hard hitter at short, and Clark, a former American Association player, on third. Bowles will be in left field; Burnett in center, and George in right. Fry will do the catching and bat in the cleanup position.

Alex Nigro, a former Kansas State basketball and football star and at one time a member of the Toledo club in the American Association, will be with the Policemen as a utility player.

Last season the visitors placed fourth in the Kansas State tournament and they are regarded as stronger this season.

The Athletics met their first defeat of the season last Tuesday evening at Columbia under the lights but not until the eighth inning did the Columbian take the lead and go on to win. The Sedalians hope to go out Sunday and show the home town fans they are worthy opposition for the strongest semi-pro talent in Kansas City.

## A Special Golf Event at Anderson Golf Club Saturday and Sunday

Saturday what is styled a "Million Dollar Golf Tournament" is to be held at 1 o'clock at the Anderson Golf course south of Sedalia on highway No. 65, formerly the municipal links.

An exceptionally large number of golfers are expected to participate and each will be given slips representing "\$10,000." Special collections are to be made from players when a golfer gets the first ball on green, first ball holed out, gets either a birdie, or eagle.

Penalties are to be exacted on ball in rough, stopping to look for ball, ball in wrong fairway, ball out of bounds, swearing, sweating at caddy, lost ball, and penalty to each player assisting in search. The event will continue through Sunday.

The course is declared to be in the best condition it has even been

## GOSSIP IN NATIONAL LEAGUE CENTERS ON DEAN AND LOU FETTE

By SID FEDER Associated Press Sports Writer

NEW YORK, June 4.—The boys along the baseball front were picking a nice, quiet second division berth for the Dean-less St. Louis Cardinals today.

At the same time the talk that wasn't given over to the Dean doings, was directed at the work of another pitcher, Lou Fette, who's been proving himself the surprise package of the Boston Bees and the 1937 National League rookie crop.

Without their great "popper-offer," whether he's right or wrong in his row with Ford Frick, the Cards are anywhere up to 20 games weaker, depending on how long he's going to be on the outside looking in. As a result, if his suspension lasts for any length of time, the Gas House Gang, which is already deep in a pitching depression, figures to wind up back of the eight ball and out of a piece of the series melon.

If they do, two clubs, the Bees and the Dodgers, may fight it out for the fourth spot in the final National League lineup—the Dodgers, because Burleigh Grimes has given them a shot of dynamite, and the Bees, largely because of Fette.

A lot of baseball men laughed when old Bill McKechnie sat down at his desk last winter and signed a flock of rookie "old men" for his Boston Bees. Generally, it was considered somewhat of a joke that Old Bill was going to bank on candidates of freshman experience and senior years.

But Bill, as usual, proved about as foolish as a McGraw. For the rest of the league is kicking itself now over at least one of Boston's rookie veterans—Fette. This "youngster" is 30 years old, and for the last few years has been doing a workhouse act with considerable success for St. Paul of the American Association.

Why none of the other big league clubs never gave him a tumble remains a mystery. But Old Bill took a chance, and today Fette is one of the three top elbowers in the league. He has beaten every club that he has faced, and he's faced them all except the Giants and Phillies.

The only club to top him so far is Pittsburgh, nosing him out 4-1 early in the season. Yesterday was revenge day for Fette in a big way, as he handed the league-leading Bees their first shutout of the year. He blanketed them with seven hits for a 6-0 win and his sixth victory against one defeat this season. Certainly, if he wasn't around, the Bees would never be in sixth place now.

**GAIN IS MADE BY LEADING STOCKS**

NEW YORK, June 4.—(AP)—Leading stocks switched back on the recovery track in today's market after drifting moderately downward in early proceedings.

The President's press conference remarks left the list cold for a time but, after some study, trading forces apparently found buying fuel in the chief executive's warning to reporters "not to worry" over the gold situation and in his statement that new messages would be sent congress this session.

His assurance the court reform program would be put through without compromise seemingly was in line with expectations.

On top of the gold hint from the White House, Wall Street also found belated stimulation in unconfirmed rumors that three principal nations names not mentioned—would announce over the week-end their willingness to purchase the yellow metal at any amount at around \$25 an ounce.

The stock turnover was the smallest in more than two years until near the final hour when the ticker tape got a bit busier. Transfers were in the neighborhood of 250 million shares.
